@FOLDEVENTS

brings together artists from regional, national and international locations. The artist's works are a response to the word 'bed'. The forms and concepts emerge according to the individual artist's concerns.

Working together the artists will create a complex, series of juxtapositions and exchanges between the work.

Media and forms include: drawing, sculpture, painting, printmaking, photography, digital media,

text, performance, multiples, poetry, song, documentation and combinations.

During the exhibition run, project 'Fold' will host a series of seminars on the theme of inter-generational skills and knowledge exchanges for artists outside academic contexts.
